

VOICE 28 HD duo | mono NC

Crystal Clear Audio in Every Environment

The Axtel VOICE QD series are professional business headsets designed for every work environment, including the most challenging and loudest offices. Thanks to a universal QD plug which allows easy connection with various devices, Axtel VOICE QD series works with both desk and mobile phones, as well as PCs.

The VOICE headsets are available in two sizes: Axtel VOICE 28 with 28 mm speakers coated with foam and Axtel VOICE 40 with 40 mm speakers covered with elegant leatherette ear cushions. Larger foam earplates ensure optimal noise cancellation by isolating the user from loud surroundings and both models offer crystal-clear HD sound allowing undisturbed, high-quality conversations.

Extra comfort during a long-hour use is guaranteed by foam headbands.
