Description:

The professional AX-4K Business Webcam featuring state-of-the-art audio and video technologies improves the efficiency as well as the comfort of business meetings, while making users feel as if they were attending the events in person. This compact device provides a superior video experience thanks to its advanced 8MP Sony 1/2.8-inch CMOS sensor, which enables unrivaled Ultra HD 4K 2160P image quality in 16:9 panoramic format at an optimized frame rate of 30 fps. In order to complete the video experience, the camera provides features such as Auto Focus and White Balance, as well as flicker reduction. With its eye-catching design, aluminum body and top quality, durable materials, it will satisfy even the most demanding users.

In addition, Axtel has ensured an excellent audio experience by integrating the AX-4K Business Webcam's advanced 4-element MEMS microphone with Active Noise Cancellation and Area Sound Pickup, De-reverberation and Automatic Gain Control (AGC) functions. All of which guarantee effective speech reception from a distance of up to 3 meters. It also features Artificial Intelligence (AI) functions, such as speaker tracking, auto-framing, active 3D noise reduction, which undoubtedly improve the comfort of video-conferencing and business meetings. The AX-4K Business Webcam is extremely easy and intuitive to use thanks to its compatibility with popular operating systems such as Windows, Mac and Linux, which can be simply integrated using the Plug & Play technology via a 2-meter USB-A cable.
