## Description:

It is made of high quality materials and comfort of use is guaranteed even during long-hour use, thanks to its construction and ease of regulation, allowing users to adjust it accordingly to their needs. The Voice UC40 will check perfectly whether you work remotely or in a busy office. Moreover, due to its additional features, not only will it provide a lifelike conversation experience, but will also guarantee excellent music playback. Alongside regular call management buttons, such as answer and end calls, volume adjustment and mute, the ergonomic USB pilot has been equipped with an additional Audio button which allows the user to adjust the acoustic properties accordingly to ensure the best quality of sound, depending on whether they are having an important business conversation or enjoying their favorite music track. The headset has been optimised for a majority of operating systems, including Skype for Business and 3CX\*, so you can easily connect with your clients and partners around the world. The Plug&Play technology allows immediate device detection by your PC.

\*3CX requires drivers installation
