Description:

Elite QD combines advanced sound technology and original design in one interface. These headsets are designed for the most demanding users and guarantee clear and flawless communication on both sides. HD voice is a crystal clear sound standard used exclusively in our Elite models and provides excellent audibility. Its microphone with advanced noise-cancellation technology can improve the quality of a conversation even in the loudest office environments. It allows both the consultant and client to fully focus on their conversation and gives them the impression they are communicating face-to-face. Elite HDvoice headsets could be distinguished by its adjustable headband, extremely durable construction, and soft, leatherette ear cushions.
