Description:

Managing calls in a large company is not easy and sometimes even the most advanced IP phone by itself will not be up to the task. The AX-46 is an expansion module dedicated to the Axtel AX-500 IP desk phone to take its functional capability to a whole new level. It is notably well-suited for employees whose daily responsibilities include managing a vast amount of calls, such as receptionists and office clerks.

A large 5" color LCD screen allows clear and aesthetically pleasing display. 20 soft keys with dual color LED can be programmed with up to 40 assorted features including BLF, speed dial, call park, and many more - all to fit individual needs of each user. Equipped with 2 additional control keys to operate between the two available pages.
