Description:

The lightweight and comfortable MS2 headsets ensure full comfort during use and have many features designed specifically for UC systems. Thanks to its careful and flexible construction equipped with adjustable speakers, the headset can be used according to an individual's preferences. The MS2 Series was optimized for most of the operating systems, call answering and the termination function. Furthermore, its functional USB cable enables exchangeable integration with a PC. Its Plug & Play technology makes the headset identifiable by the system immediately upon connection with the device. Last but not least, users who often change their workplace may easily carry the MS2 with them by using its compact case.
