VIDEO SOLUTIONS

IP PHONES

Global brand with EU headquarters, branches on **5** continents, and a presence in **98** countries

## JOIN OUR AFRICAN EXPANSION

Axtel is currently broadening its African network and is seeking telco and IT peripherals equipment distributors on the continent.

If you are a company located in the region and are interested in including Audio and Video solutions in your portfolio, please contact our Business Development Officer for Africa, **Mr. Kevin Boudali**, via email at [kb@axtelheadsets.com](mailto:kb@axtelheadsets.com) or by WhatsApp/Phone at **+48660742947**

## Axtel Unique Advantages on the market of A&V solutions

This is how Axtel stands out from other brands:

- 1** Production flexibility and customization
- 2** Own manufacturing plants in the EU
- 3** Made in EU" Manufacturing Standards
- 4** Product personalization
- 5** Technology added value
- 6** Innovation
- 7** Product availability and short lead times

# PERSONALIZATION

AT AXTEL, WE KNOW THAT SEEMINGLY  
SUBTLE CHANGES CAN OPEN GREAT  
OPPORTUNITIES.

You can customize your headset with a permanent logo  
of your company or any design you want.

You can also choose from different styles of O-rings  
for Axtel Prime, which add a touch of color and flair to  
your headset.

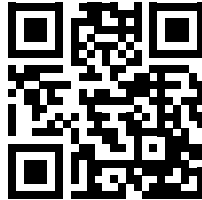

# CUSTOMIZATION & INNOVATION

We understand that a ready-made solution may not always  
be the best one, that is why all Axtel products can  
be customized. Thanks to our own R&D center and factory,  
we can create products that are perfectly suited to complex  
customer demands.

Continuous innovation has allowed us to create a unique  
product - headset dedicated to the blind. Thanks to them,  
visually impaired people need only one headset  
to comfortably talk, operate a computer and a phone  
at the same time. This is the only available solution  
of its kind in the world.
